

IIFH Production Board Fellow

A unique opportunity to join our 2019 innovation partners onsite to gain first-hand experience on what it takes to have a successful startup

- **\$70K fellowship:** 1 year salary, tuition, travel and research expenses (up to \$70K by [IIFH](#))
- **Timeline:** Fall 2019 to Summer 2020 ([flexible](#) start date)
- **Eligibility:** UC Davis post-doctoral fellows, or PhD students in their last 1-2 years of study
- **Experiential Learning with Venture Capital Group:** During the first quarter of the fellowship, the fellow will work with the host to evaluate startups in the food system and identify investable ventures, kicking off with an onsite residency (up to \$7.5K travel and accommodation allowance provided). During the second quarter upon return to Davis, the fellow will engage in regular virtual and in-person meetings with the venture capital host.
- **Developing and De-risking Innovative Concept:** Using the knowledge gained in the first phase of the program, fellows will have an additional two quarters to conduct critical studies for de-risking a potential technology, product or process they want to develop.
- **DUE May 30, 2019** – [Click here to apply.](#)

About The Production Board

[The Production Board](#) is a San Francisco-based technology incubator and investment holding company, aiming to improve the efficiency and economics of global food and agriculture markets. To realize this mandate, they conduct deep research into fundamental problems in the food and agriculture value chain, and identify opportunities where

technology may enable new operating models or improved end products. They then fund, build, and capitalize companies based on core theses. In some cases, supplying capital and strategic partnership to external companies already pursuing this work.

About the Innovation Institute for Food and Health

The IIFH makes uncommon connections between sectors and disciplines to catalyze innovation across food, agriculture and health. It works to accelerate the deployment of products and processes to enable safe, sustainable and secure nutrition for all. Together with strategic partners, IIFH identifies systemic issues as the basis for collaborative programs using both top-down (partner-driven) and bottom-up (investigator-initiated) approaches to formulate systemic solutions. This reduces the time from conception to application for transformative impact.

Program Description

First Quarter: Onsite experiential learning with The Production Board in San Francisco

- Start date flexible: following selection, join The Production Board for the first quarter in San Francisco in Fall 2019 (including \$7,500 travel and accommodation allowance).
- Explore The Production Board's strategic ecosystem and extensive network of assets in evaluating and vetting competitive investment opportunities.
- Learn what kind of companies and technologies are considered investable and engage with expert consortium members to understand opportunities in food/agriculture innovation.
- Gain invaluable knowledge about what investors look for in entrepreneurs.

Second Quarter: Transition back to UC Davis, splitting time between research and virtual engagement with The Production Board

- At UC Davis: upon second quarter return to Davis, continue to support The Production Board efforts in evaluating startups and selecting investable ventures that address selected challenges in the food system.
- The fellow will work closely with The Production Board staff through virtual means, but support is provided for regular in-person meetings as needed.

Third and Fourth Quarters: De-risking technology/product/process concept

- Resume doctoral research: for remaining two quarters, practice applying The Production Board learnings to conclude research activities, exploring the greatest impact and best route to market.
- Enrich learning: through on-campus Entrepreneurship Academy and business plan development, identify potential investors and research the target landscape.
- Support from: monthly face-to-face meetings with the IIFH (virtual or in-person as needed).
- In conclusion: provide a brief report on the results and impact of the fellowship, and present at the annual Innovator Summit.

Application Requirements

- 1) Completed application
- 2) Curriculum Vitae (PDF)
- 3) Letter of interest detailing current PhD research, why the program is of interest to you, and how your career goals align therewith (max. 2 pages, PDF format)
- 4) Letter of support from faculty PI of research project (max. 1 page, PDF format)

Application Deadline

May 30, 2019 – OR UNTIL FILLED. [Click here to apply.](#)
